PROFESSIONAL SUMMARY

I am a passionate and detail-oriented IT professional and full-stack software developer with strong skills in data management, technical support, and web development. I have hands-on experience working with both front-end and back-end technologies, database design, and system troubleshooting. I am highly organized, skilled in managing data workflows, and committed to building reliable, user-focused solutions that improve efficiency and productivity. I enjoy learning new technologies, solving real-world problems, and continuously improving my technical expertise.

CORE COMPETENCIES

- **Technical Skills:** IT Support, Data Entry & Analysis, Database Design, Database Management, Web Development (Front-End & Back-End), System Troubleshooting, Network Configuration, Documentation.
 - **Soft Skills:** Team Collaboration, Communication, Attention to Detail, Problem-Solving, Time Management, Adaptability, Critical Thinking.
-

EDUCATION & CERTIFICATIONS

ALX Africa

- Virtual Assistant Program – 2025
 - AI Career Essentials - 2025
 - Professional Foundation – 2025
 - *Software Development* - 2025
 - Software Engineering - 2025
-

EXPERIENCE

Quality Assurance Intern – Agiza Tech

Aug 2025 – Jan 2026

- Conducting software testing to identify and report system bugs.
- Collaborating with developers to enhance product reliability and performance.
- Supporting data validation and entry for system analytics.

Personal & Freelance Projects

- **Sheriflogistics** – Developed a full-stack web application for sherif logistics that helps them showcase their service and manage clients and workers effectively.
- **Listing App** – Created a responsive platform for property listings with user authentication and CRUD operations.
- **Airbnb Clone (In Progress)** – Building a full-stack booking platform using Django, MySQL, and PostgreSQL.
- **API Data Fetching & Automation Project** – Built scripts to fetch and process data from external APIs in parallel, improving performance through asynchronous execution and proper process management.
- **Git & Version Control Practice Projects** – Practiced version control using Git and GitHub, applying best practices in branching, commits, and project documentation.

TECHNICAL PROFICIENCIES

- **Programming Languages:** JavaScript (Node.js), Python, HTML, CSS, SQL, Typescript
- **Frameworks & Tools:** React, Django, Express.js, Tailwind CSS, Bootstrap, Nextjs
- **Databases:** MySQL, MongoDB
- **Version Control:** Git, GitHub
- **Other Tools:** Google Workspace, Excel, VS Code, Trello, Slack, Microsoft Office

-
- Dedicated to continuous learning, professional growth, and contributing to technology-driven solutions in IT environments.
